

BUILT TO LAST, IN AMERICA

WILLOUGHBY TPLR

Ligature-Resistant Mixing Valve

Willoughby behavioral healthcare products are designed to offer peace of mind and provide safe and durable performance in behavioral healthcare facilities. This family of products minimizes ligature points with aesthetic and functional appeal.

Be sure to check out our full line of behavioral healthcare fixtures.

Built to last

Features chrome plated brass dome-shaped quad lever handle and escutcheon along with brass corrosion-resistant valves and internal components.

Minimizes Ligature Points

Our valve escutcheon and handle set has no protrusions that can be used as tie-off points.

Prevents Scalding

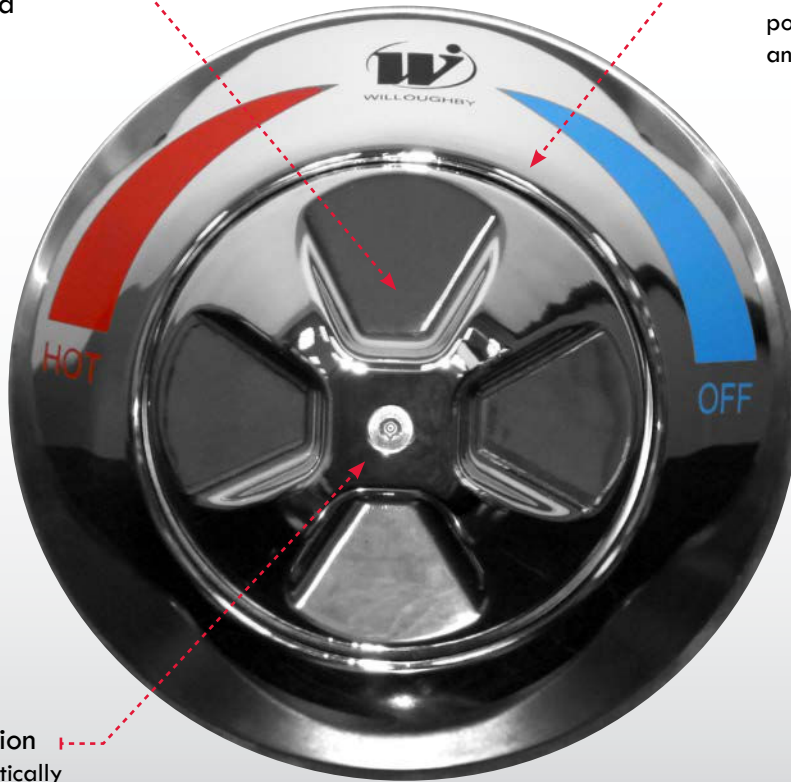

Using an advanced thermal actuator, the TPLR quickly compensates for temperature fluctuations induced by water temperature and pressure changes.

WILLOUGHBY

Quad lever
dome-shaped
handle

Ligature Resistant
• Minimizes ligature
points with aesthetic
and functional appeal

Easy Operation
• Valve automatically
mixes hot and cold
to deliver blended
water within a
specified range

Now we're even
easier to specify:

Product
MasterSpec®

Technical Specification: Model TPLR
Escutcheon diameter: 6" Valve depth: 3.5"
