

BUILT TO LAST, IN AMERICA

Replacement toilets that LAST!

Vitreous china (porcelain)
direct replacement toilets

Do you have worn, outdated, or cracked vitreous china toilets installed in your facility? Willoughby has an answer to the replacement routine. Let us manufacture new heavy-duty stainless steel toilets to fit your existing plumbing rough-ins, eliminating the need for massive plumbing piping changes.

If you have American Standard, Crane, Elger, Kohler, or Super Secur toilets, we can build replacements that have identical critical dimensions. They're available in 3.5, 1.6, or 1.28 gallons-per-flush models.

» **Contact your local Willoughby representative or parts distributor today for a quote.**
